

I am honored to write to you and thank you for allowing my opinion to count. My husband and I have 4 children, ages 9,6,3, and 1. K-Love allows our whole family to listen without fear of inappropriate material being introduced to innocent ears. We learn of free family centered activities in our area and it enables local groups to get the word out of fun activities that they are providing. Without K-Love, our family would simply not listen to the radio at all, but only CD's of the positive music that they play. We would miss out on local information, local groups would have to pay for advertising of free services, and we would miss world news. Thank you for understanding how important this station is to our family and thousands of others. The Byerly Family
